 Brightly Insurance

## Cyber RX

Provides small businesses with the resources needed before obtaining or renewing a cyber policy. Let us consult with you prior to applying for cyber coverage

## Premium Prices are Rising

Cyber coverage premiums are skyrocketing, and not all third-party IT providers are able to adequately meet the more stringent technology and process requirements needed to obtain and/or maintain cyber coverage.

## Cyber Threats

During the past two years, cyber attacks have become the predominant threat to the viability of a business. Bad actors realize small businesses are low hanging fruit and great targets of opportunity for malware, ransomware, and obtaining protected information on consumers to be resold.

## The Answer

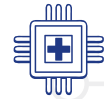

Our experienced cyber and insurance professionals can help your business get "Cyber-Ready" for coverage with our Cyber Rx Consult!

## CyberRx Consult Consists of the Following Resources:

Review of written cyber incident response plan

Review of written protocols

Review of employee training for PII and PHI

Review all IT systems

Assist with completing cyber coverage application appropriately

Recommendations to enhance cyber security posture before submitting application
