

Protect your Business & Clients with CPA Practice Services

Brightly's CPA Cyber, Compliance, C-19 and Continuity Services

provides a comprehensive toolkit of specialized services, coverages, business and cyber tools that enable you to manage and grow your practice, while mitigating your risks.

By bundling each of these services together, we enable you to make customized assessment of your firm's risks and build actionable and reliable plans and defenses to better protect your clients' and your business.

Regulatory Compliance Services

Regulatory and compliance standards are changing constantly. We keep our fingers on the pulse of changes coming from the 2021 WISP requirement and other regulations and provide simple and innovative solutions to facilitate your firm's compliance.

Cyber Tools and Services

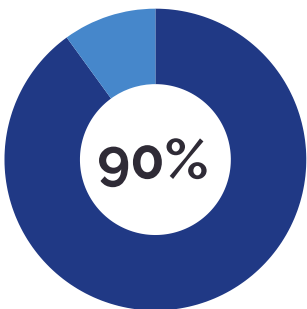

CPAs are one of the highest risk populations for cyber breach. Our comprehensive cyber services provide you with the ability to quickly assess risks, and our state-of-the-art tools enable you to achieve enhanced protocols, cyber tools and coverages and supporting services.

COVID-19 Services

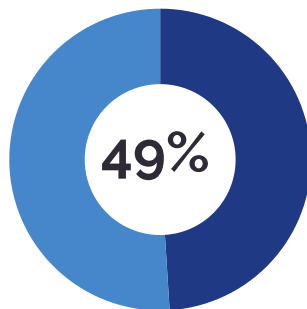

The global pandemic has changed operating models around the world. Our COVID-19 Commercial and Personal services help your practice adapt to this new normal with unbiased and vetted information resources that support your business, newly-remote workforce and clients

Business Continuity Services

As the world changes rapidly in response to the unexpected, we're providing business continuity services to benefit you and your clients. We help you maintain brand continuity, relevance, and communication as well as evolve your practices to adapt to a new socially-distant norm.

90% of accountants say there has been a cultural shift in the field due to technology.

49% of accounting firms have reviewed their business practices in the last year.
